13. Office Manager Signature/Date  3/27/01		14. Category of Change: Update ECS Baseline Doc.		15. Priority: (If "Emergency" fill in Block 28). Emergency		
16. Documentation/Drawings Impacted: N/A		17. Schedule Impact: N/A		18. CI(s) Affected: DPS		
19. Release Affected by this Change: 5B		20. Date due to Customer:		21. Estimated Cost: None - Under 100K		
22. Source Reference: <input type="checkbox"/> NCR (attach) <input type="checkbox"/> Action Item <input type="checkbox"/> Tech Ref. <input type="checkbox"/> GSFC <input checked="" type="checkbox"/> Other: Preliminary PRPEQC PGE functionality						
23. Problem: (use additional Sheets if necessary) Provide a Preliminary Engineering Software Test version of the PREPQC Capability to GSFC for testing. This code is NOT to be put into OPS mode. Science office development in Landover expects to get feedback from GSFC on the testing. Science Development is available to help in the installation and testing of this software.  This software and all supporting software for this PGE is being supplied from a developers view. This code is not yet completed Clearcase integration. And, thus has not gone through normal software integration and regression testing in the integration lab.						
24. Proposed Solution: (use additional sheets if necessary) Engineering Executable (EE) 5B.07_PREPQC.01 will provide the preliminary software as mentioned above. The EE can be loaded on top of 5B.07 INSTALLs. Refer to PREPQC Install instructions contained in the readme file of the TAR file that is delivered.  The TAR file is from a developer's view and will bypass normal SMC distribution. (To be FTP'd to GSFC.)						
25. Alternate Solution: (use additional sheets if necessary) Take no action now and wait until PREPQC is released or available as a TE..						
26. Consequences if Change(s) are not approved: (use additional sheets if necessary) Functionality will not be field tested						
27. Justification for Emergency (If Block 15 is "Emergency"): need to provide for testing at GSFC as soon as possible.

Telephone: 301.925.0348 Office: DEV/CO

**Title of Change:** Engineering Executable 5B.07\_PREPQC.01 to GSFC. Provides preliminary PREPQC PGE functionality to GSFC for testing. This software is NOT to be placed into OPS mode.

### CONTENT:

CM: Please take the following TAR file from the developer's view shown and provide to GSFC. This is to bypass normal distribution to the SMC.

The code included in the below listed tar file works fine independent of clearcase view (some environmental variables were not being set as though when switching between views).

The gzipped PREPQC tar file is in directory

/home/wwaldron/airs/prepqc/pge/daac/PREPQC-030801.tar.gz

It's size is ~ 11.6 MB

SMC: no action required.

### GDAAC

1. Provide an area to get TAR file FTP'd.
2. Install Instructions:

Note: that this is not to be placed in Ops mode!!!!!!

Installation support will be provided by the developer Wayne Waldron. Instructions and software provided in the TAR file are detailed in the readme file that is delivered in the TAR file.

Science office is available to provide support, contact
